Appreciation Letter from Jacksonville Chinese Association

This is to give our heartfelt gratitude and sincerest appreciation for your generous financial support and goodwill toward those who were tragically afflicted by the 5/12 Sichuan Earthquake in China.

On behalf of all those earthquake survivors who will benefit tremendously from the collective relief efforts that you have made possible, JCA (Jacksonville Chinese Association) would like to express our indebtedness here. We say from the bottom of our hearts, "Thank you!"

The precious financial support you gave will be quickly transformed into much needed shelter, food, medical care and other forms of relief for the earthquake victims, whose needs for assistance are rapidly increasing due to the threats from the continuous aftershocks and quake lakes.

Special thanks are also given to all those volunteers and friends who helped to make the "Fill the World with Love", the large-scale charity event to benefit the Sichuan earthquake victims, a huge success. Your passion, dedication and tireless efforts contribute to a noble cause, which will be dearly remembered and inspiring to others in years to come.

With your love, concern and help, the reconstruction of the devastated areas in Sichuan, China will surely speed up, the disaster-hit communities will be rebuilt and hundreds of thousands of lives reshaped. Together, we are making a difference.
